

## Why Working in the Cloud is Better

Accounting CS® is built from the ground up to take advantage of cloud computing technology, which hosts your applications and data at secure, off-site data centers. This means you get the benefits of the latest technology, including:

### Anytime-Anywhere Access

You can access your applications and data from any internet connection anywhere in the world.

### No Manual Updates/Software Installs

Accounting CS is remotely hosted, so software updates and maintenance are automatic.

### State-of-the-Art Security

Accounting CS uses professional-grade security to keep your data safe in some of the largest, most secure data centers in the world. It uses the industry's most advanced security and reliability measures to keep your data safe.

### Built-in Redundancy and Security

Business continuity is made possible with multiple data-center locations, internet connections and power sources to keep your business tools up and running at all times. Be confident that your financial data is safe with a comprehensive password system and 256-bit encryption that protects your data as it travels between the data centers and your computer.

## An Always-On Connection to Your Finances: Accounting CS

What if you had anytime-anywhere, 24/7 online connection to your financial information? You could exchange files, manage documents, enter daily bookkeeping information, pay employees, even work directly with us in real time. All from any internet connection.

We've made it easy with Accounting CS, a revolutionary way to track financial data, monitor progress and set goals. It automates daily bookkeeping, check writing, vendor payments, time entry and much more—and it eliminates imports, exports, software updates and more.

It's as easy as online banking or shopping, and it's completely secure.

### Ready to Get Started?

Setting up your business with Accounting CS is fast and easy. Give us a call or send us an email, and we'll be happy to help.

With Accounting CS®, You Can:

## Save Time

- Record bank activity like deposits, ATM activity, debits, credits and transfers—information you enter is available to us instantly with no updates, transmittals or syncing
- Run reports at any time during the recording period—because your data is automatically updated in real time, you can pull accurate, up-to-the-minute reports whenever you choose
- Automate employee and vendor check writing
- Save time by eliminating imports and exports
- Print checks right in your office
- Reconcile online transactions automatically
- See adjustments and notes from us instantly

## Process Accounts Payable & Receivable

Accounting CS offers a sophisticated accounts payable and accounts receivable service, making it possible for your business to process payables and receivables in-house.

- Enter payables, receivables and credit memos using either a rapid view or a detail view
- Generate sophisticated, up-to-the-minute reports, including aging schedules, cash requirements, payable and payment list, purchases journal and more
- Set up payment terms to track due dates and outstanding payables and receivables

## Automate Your Payroll Process

- Improve withholding accuracy with automated setup
- Easily handle employee processing and reporting for multiple departments and locations
- Automatically track and pay payroll liabilities
- Automatically calculate payroll for tipped employees
- Handle 401(k) and other pre-tax deductions
- Handle paperless direct deposit transactions
- Quickly import time from Microsoft® Excel® spreadsheets, or a variety of supported time clocks
